# SepsEast 2025

5th Conference of the Central-Eastern European Sepsis Forum

## Organised by:

Central-Eastern European Sepsis Forum in cooperation with SANOPHARM CZ

Dear colleagues,

We are honored to invite you to the 5th Conference of the Central-Eastern European Sepsis Forum, scheduled to take place in Budapest, Hungary, from 13-14 June, 2025.

This event reaffirms our commitment to raising awareness, deepening understanding, sharing advancements and improving sepsis control outcomes across Central and Eastern Europe.

Our goal is to engage esteemed experts from across Europe to present the latest research findings and share their clinical experiences, enabling us to develop a scientific program that not only meets the highest standards but also contributes significantly to advancing sepsis control and treatment practices.

For the first time, the conference will be endorsed by one of the most prestigious universities of Central Europe, the Semmelweis University and the university's Department of Anesthesiology and Intensive Therapy, which elevates the event's academic value even further.

We are confident that Budapest—with its rich historical, architectural, and cultural heritage—will provide an inspiring backdrop for professional networking and foster stronger connections with colleagues and partners from across the region.

We look forward to welcoming you to an impactful conference and a memorable experience in Budapest.

On behalf of the Central-Eastern European Sepsis Forum:

**Prof. Dr. Jan Beneš, Ph.D.**

President, Chair of the Scientific Committee

**Prof. Dr. Zsolt Molnár, Ph.D.**

Honorary president, Chair of the Organizing Committee

On behalf of the organising agency SANOPHARM CZ:

**Petr Salomon, MSc**

Executive Director
